

Packaging change

^{Pr}Gemcitabine Injection

Dear Customer,

Sandoz Canada Inc is in the process of transitioning to sleeving packaging for its complete Oncology injectable products portfolio. We are pleased to announce that the transition is completed for ^{Pr}Gemcitabine Injection 40 mg/mL 5mL vials.

^{Pr}Gemcitabine Injection 40 mg/mL:

Current Packaging	New Packaging	Current Code	New Code	DIN	Strength	Format	GTIN	Approximate date in the market
		44029387	44100942	02412292	40mg/mL	5 vials of 5mL	057513212772	End of June 2023*

In addition to the packaging improvement, Sandoz ^{Pr}Gemcitabine Injection 40 mg/mL 5mL vials will now feature a Data matrix barcode** (including GTIN, lot number and expiry date). This new industry standard will improve the efficiency of hospitals's operations and the traceability of products to drive safer medication management.

* Date subject to change based on the inventory at wholesalers

**The unit of use Data matrix barcode replaces linear barcode to include GTIN, lot number and expiry date information.
