**Subject: Availability notice**  
**Pendopharm's hyaluronic acid injectables for osteoarthritis pain**

Dear customer,

PENDOPHARM is one of the leaders in hyaluronic acid (HA) injectables, helping patients suffering from osteoarthritis (OA) pain. We offer a complete portfolio of viscosupplements and are committed to supporting you and your patients during this very busy time.

**MONOVISC®** is a high molecular weight **HA indicated for the treatment of pain in OA of the knee, hip, shoulder, and ankle.**

**CINGAL®** is a **unique combination of HA (Monovisc) and corticosteroid** for the treatment of pain in OA of the knee.

**ORTHOVISC®** is indicated for symptomatic treatment of OA of the knee.
